

BioSpace25 - Biodiversity insight from Space
10 - 14 February 2025 | ESA-ESRIN | Frascati - Italy

From Data to Biodiversity Insight: Using Earth Observation to address biodiversity knowledge and observation gaps

Moderators: Stefanie Lumnitz (ESA, European Commission), Fabian D. Schneider (Aarhus University)

How will we know if we are Bending the Curve of Biodiversity?

Dr. Andrew Gonzalez

Professor and Liber Ero Chair in Biodiversity, Department of Biology, McGill University

Co-Chair of the Group on Earth Observations Biodiversity Observation Network (GEO BON)

Implementation of Earth Observations for Biodiversity Monitoring in Europe

Dr. Petteri Vihervaara

Research Professor at the Finnish
Environment Institute (SYKE)

Lead of Biodiversity monitoring
activities (WP2) in the European
Biodiversity Partnership
Biodiversa+

From data to biodiversity insight: Using EO to address biodiversity knowledge and observation gaps

Dr. Susana Baena

Lead Remote Sensing Specialist,
UNEP WCMC

Dr. Aidin Niamir

Senior Scientist,
Senckenberg Biodiversity and Climate Research Centre; IPBES Head of Knowledge and Data Technical Support Unit

Dr. Andrés Mármol-Guijarro

Postdoctoral Researcher,
iDiv; EuropaBON Co-Lead

Dr. Maria Santos

Professor for Earth System Science,
University of Zurich

Dr. Kyle Copas

Head of Communications,
GBIF
